**2200-6000 GPD**

## **Standard Features**

**Low Energy-**

**operates at 110PSI**

**Stainless Vessel**

**Stainless Pump**

**Stainless Drain Valve**

***Low Energy DESAL Membrane***

***SS Pump-***

***Multi-stage centrifugal***

**Permeate Flow Meter**

**Concentrate Flow Meter**

**Digital TDS Monitor-**

**monitors inlet TDS and outlet**

**Low pressure safety cut off**

**Liquid Filled Pressure Guage**

**20" Pre Filter**

**Aluminum Frame**

\*Easy installation.

\* Cartridge pre filter systems with replaceable elements for removing suspended materials and extend component life.

\*System Specifications:  
Capacity is based on properly treated feed water of 500ppm TDS at 77 F. with silt index less than 5.

Made in the

**U.S.A.**
