

GREAT TASTING, PURIFIED WATER
FROM EVERY FAUCET IN YOUR HOME

homespring[™]
water purifier

Welcome.

*It's a New Era for Convenient, Great Tasting,
Purified Water at home.*

Experts and families agree, the convenient household water revolution is long overdue.

Exotic bottled water, water coolers, jug filters and one-faucet filters are yesterday's news. Modern families want crystal clear, purified water from every faucet in the home, with the help of award-winning ultrafiltration membrane technology from Homespring™.

Water for the World

Innovative, natural and efficient, it's from ZENON Environmental Inc., the same people who have led the revolution in advanced water filtration products for more than 25 years. A publicly-traded company, ZENON has received numerous awards for its innovative technology as well as for ethical business operations and environmental awareness. Internationally recognized, ZENON's patented leading edge technology is used to treat drinking water and wastewater in municipalities, industries and at peacekeeping missions all over the world.

Welcome to a new era for totally convenient, purified, great tasting household water.

Welcome to Homespring™.

Convenient, Great Tasting, Purified Water

Important: Please see additional information on back panel.

Convenient

The Homespring™ Central Water Purifier is installed at the point where water enters the house, providing unlimited, purified water from every faucet in your home without taking up valuable storage space. Virtually maintenance-free, the system self-cleans daily using its own filtered water. The Homespring™ Central Water Purifier effectively filters city, well or lake water.

Great Tasting

Enjoying great tasting water is now as easy as turning on your tap. Bottled water taste is now available on demand throughout your entire home.

Purified

The Patented Homespring™ Central Water Purifier has been tested and certified to meet the USEPA Standards and Protocols for Testing Microbiological Water Purifiers. This Revolutionary ultrafiltration membrane technology provides purified water by significantly reducing pathogens including bacteria, viruses and cysts. You and your family enjoy peace of mind when drinking, bathing or preparing food with pure water from every tap.

It's a New Era for Convenient, Great Tasting, Purified Water at Home.

Important: Please see additional information on back panel.

Designed for Unlimited Purified Water Supply

Using existing water pressure the Ultrafiltration system provides a continuous supply of water for your family's needs. Because the Ultrafiltration system uses a chemical-free advanced physical barrier, bacteria, viruses and cysts are automatically blocked out and flushed away, leaving naturally dissolved healthy minerals in the water.

Award-Winning Technology

ZENON continues to win prestigious awards, including recognition for its innovative membrane technology and designation as the country's top corporate citizen.

Popular Science Magazine has also bestowed the Homespring™ Central Water Purifier with the **Best of What's New Award** in the Home Tech Category. This award recognizes breakthrough technologies and innovations that change the way we live life today and in the future.

For more information on convenient, great tasting, purified water from every faucet in your home, please contact your local Homespring Certified Dealer.

How It Works

The Homespring™ Central Water Purifier system means pure, crystal clear water from every faucet in your home.

1 Inlet

Ultrafiltration membrane technology filters municipal, well, cistern, lake and river water. It is easy to install where the water supply enters the house, generally near a water heater, in new or existing homes.

2 Pre-filter

An optional Activated Carbon Pre-filter improves taste and minimizes unwanted odours.

3 ULTRA-Filter Membrane

Ultrafiltration membranes are an effective block against undesirable particles, bacteria, viruses and cysts to provide purified water.

4 Continuous Supply

The Homespring™ Central Water Purifier system uses normal water pressure to provide a continuous supply of crystal clear filtered water. If the power fails the Homespring™ Central Water Purifier system continues filtering.

5 Drain

The Homespring™ Central Water Purifier effectively flushes all rejected impurities down the drain during the automatic cleaning cycle.

6 Outlet

Filtered water on demand flows from the Homespring™ Central Water Purifier to the water heater and to every faucet, shower or bath in the home.

7 Automatic Cleaning Cycle

The Homespring™ Central Water Purifier is engineered to automatically flush itself clean at a very efficient rate. It automatically flushes impurities down the drain during your pre-selected time each day.

How the Homespring™ Central Water Purifier compares with other whole-house technologies

Other treatment methods can't match ZENON's experience and the superior performance of the Homespring™ Central Water Purifier.

Typical System Capabilities	Homespring™ Central Water Purifier	Ultra-Violet Systems	Ozone Systems	Reverse Osmosis Systems	Chlorine Systems	Carbon Filters
Removes bacteria and viruses	YES*	NO	NO	YES	NO	NO
Removes parasites (cryptosporidium & giardia)	YES*	NO	NO	YES	NO	SOME
Efficient self-cleaning	YES	SOME	NO	NO	NO	NO
Keeps filtering when power fails	YES	NO	NO	YES	SOME	YES
Improves taste	YES	NO	SOME	SOME	NO	YES
Removes cloudiness	YES	NO	NO	YES	NO	YES

*Please see additional information below.

Additional Information

The Homespring™ Central Water Purifier must be installed by a certified Homespring™ technician and properly maintained in accordance with the Homeowner's Manual. Failure to properly maintain the system will compromise performance and/or result in a failure to control water quality. Improvements to taste result when the system is used with the optional carbon filter. Water safety: Please see the certification and independent laboratory results below. Biofilm and pathogens in home piping systems could shed into water after it has been filtered through our system. Exposure to microorganisms may also occur during daily activities.

The ZENON UF200 Series* Water Purifiers have been Tested and Certified by the Water Quality Association (WQA) to the USEPA's Guide Standard and Protocol for Testing Microbiological Water Purifiers (OPP Task Force Report, 1987) as interpreted by the WQA and to NSF/ANSI 42 and 53.

* Applies to the following models: UFC207, UF209, UF209D, UFC209, UFC209D.

NSF International is the world's leading testing and certification laboratory for Water Treatment Products

System Tested and Certified by NSF International against NSF/ANSI 42 and 53 for:

- Cyst Reduction
- Turbidity Reduction
- Particulate Reduction - Class 1
- Chlorine, Taste and Odour

The Homespring™ UF 200 Water Filtration System should only be installed where the System and the installation complies with state and local laws and regulations. The Homespring™ UF 200 Water Filtration System should only be used to filter water that is cold. The Homespring™ UF 200 Water Filtration System conforms with ANSI/NSF 42/53 for the specific performance claims as verified and substantiated by test data.

NELAP* and California Department of Health accredited laboratory
*National Environmental Laboratory Accreditation Program (NELAP) Accredited #05234CA

The ZENON UF200 Series™ Water Purifiers have been tested by BioVir® Laboratories Inc. and found to meet all the requirements of the USEPA's Guide Standard Protocol for Testing Microbiological Water Purifiers (OPP Task Force Report, 1987) as interpreted by the BioVir® Laboratories specifically for the ZENON UF200 Series Products.

The test results were:
Bacteria Reduction** - 99.99999%
Virus Reduction*** - 99.999%

* Applies to the following models: UFC207, UF209, UF209D, UFC209, UFC209D.
