

## About No Dirty Water...NDW

NDW creates Natural Brilliant Water through a unique activated oxygen (ozone)/filtration process produced by Ozotech. The result is pure, natural, safe, oxygenated, odor free, great tasting water.

Each day two billion or 29% of the world's population interact with dirty water. Each day over 4,000 children (under 5) perish due to dirty water-related diseases. Each day 548 million plastic water bottles are consumed per day, but those bottles are not properly recycled, over 70% of them are burned, buried or thrown in the ocean.

**We create lasting change as we donate 5% of our revenues to fund solving the world's water issues.**

Simply, *"Unless someone like you cares a whole awful lot, nothing is going to get better, it's not."* -Dr. Seuss, The Lorax

*"At C2c we care a whole awful lot."*  
-John & Joni Szytkiel, Founders of C2c

## No Dirty Air (NDA) is ideal for:

- Shoes
- Boats
- RVs
- Cars/Trucks
- Equipment bags
- Truck sleep cabs
- Clothes
- Offices
- Home
- **Anywhere Naturally Brilliant Air is needed**

Not to be sold or purchased in California, U.S.A.

a creation of:

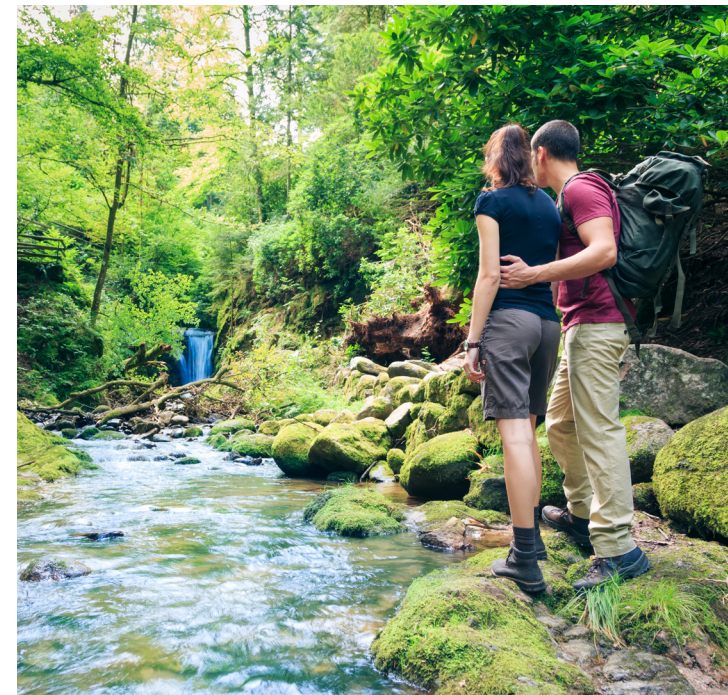

## Odor Free, Healthy Air... Anytime, Anywhere

# NDA

n o d i r t y a i r

Harnesses the power of mother nature to reduce airborne contaminants for fresh, odor free, healthy air.

## Natural, Brilliant, Air

No Dirty Air (NDA) system harnesses the power of mother nature to reduce airborne, contaminants, eliminate odors, and produce odor free, healthy air. NDA can help to reduce airborne microorganisms and allergens as well as smoke odors, pet odors, textile odors, and even food odors.

NDA personal space air cleaner is designed to process and clean 8 cubic feet per minute of air in your office, kitchen, bathroom, auto, RV, boat or any occupied space of 500 to 2,000 cubic feet in size. The technology inside NDA cleaner incorporates two of the most natural atmospheric cleansers, UV light and activated oxygen (ozone)\*. NDA circulates air through the first-stage of treatment, the activated oxygen reaction chamber. This stage oxidizes carbon-based pollutants, volatile organic compounds (VOCs), bacteria, mold, mildew and viruses. The second stage of treatment uses an ultraviolet light to further treat the air as well as lower the activated oxygen levels exiting the reactor. NDA is not a one stage system but a two stage system.

NDA Personal Air System reduces bacteria, campfire smoke, allergens, mold, food odors, tobacco odors, animal odors, cannabis odor, skunk, body odor, gas/oil odors, and the list goes on. NDA is virtually maintenance-free, just plug in for naturally brilliant air, fast. NDA is made exclusively for NDW by one of the world's leaders in activated oxygen/ozone technology...Ozotech.

\*The ambient ozone level produced by HealthAER, in ventilated spaces larger than 500 cubic feet has been tested to be below the acceptable standard's set by OSHA and NIOSH for human exposure over an 8 hour timeframe. For more information contact <http://www.nodirtywater.com/healthy>

### HealthAer Specs:

- Tubular Technology-No plates or screens to clog up or short out
- 100 G/hr ozone output, 110 V- 12 VDC, 200 mA, low voltage
- Medium frequency, solid-state electronics, portable
- Compact size - 2" H x 3" W x 5" L (purse, briefcase, backpack, suitcase, travel bag, etc.)
- Weighs .85 lbs
- Built to treat 500-2,000 cubic foot areas
